APPROACH **Mathews 18 vs 15 to 17.**

- **Go privately first:** If a member sins against you or is in error, the first step is to go to them 24590502_BSc. Comp 314 _ASSIGNMENT 1_S1privately. One –on –one to discuss the issue. This approach aims to restore the relationship and the individual rather than to shame them.
- Take witnesses: If they do not listen privately take one or two others along so that the matter may be established by witnesses.
- Tell the church: If they still refuse to listen, the matter should be brought before the church leadership or community
- Final Action: If they still refuse to listen to the church they should be treated as an outsider (a gentle and tax collector) which is a final step of accountability intended for the purity of the church.
- The goal is always restoration and maintaining the unity of the church, not condemnation
